PROFESSIONAL SUMMARY

Results-driven Information Technology graduate from Telkom University and Bank Indonesia Scholarship Awardee with a strong foundation in data science, artificial intelligence, and backend engineering. Experienced in architecting robust data pipelines, integrating machine learning models, and developing scalable AI-powered systems. Demonstrated capability in leveraging Python and PostgreSQL to deliver actionable insights, spanning from intelligent video analytics to objective data assessment tools. Proven ability to translate complex data into technical solutions, optimize operational workflows, and collaborate within cross-functional teams to drive impactful, data-driven innovations.

EDUCATION

Universitas Telkom – Bandung, Indonesia <i>Bachelor of Information Technology, GPA: 3.80/4.00</i> - Bank Indonesia Scholarship Awardee (2024-2026) – academic excellence & leadership potential - National Finalist: Innovillage (2023 & 2024)	Sep 2022 – Jan 2026
MAN Insan Cendekia Jambi – Jambi, Indonesia <i>Senior High School, Natural Science, Final Grade: 93.00/100.00</i> Provincial Finalist – National Science Olympiad (Astronomy)	Jul 2019 – Jun 2022

WORK EXPERIENCE

Co-Founder – Plus The Site - Directed end-to-end digital platform development, aligning product roadmap with market requirements. - Synchronized team collaboration across design, development, and marketing workstreams to meet milestones. - Selected as participant of the SIAP 2025 Acceleration Program by Kementerian Ekonomi Kreatif (Kemenekraf).	2025 – Present
Research Assistant – Hardware & Embedded System Lab, Telkom University - Orchestrated research project timelines and data workflows for Embedded Systems, AI, and IoT applications. - Controlled end-to-end IoT deployment for water monitoring and flood detection systems impacting ~300 households. - Optimized BUMDes-PDAM administrative workflow by redesigning it into a user-centered web platform.	Sep 2024 – Jan 2026
Backend Engineer Intern – AI Surveillance Dashboard - Developed backend services, robust data pipelines, and RESTful API endpoints for an AI Surveillance Dashboard. - Controlled deployment schedules, coordinated cross-functional teams, and monitored performance metrics for uptime.	Jul 2025 – Aug 2025

PROJECT EXPERIENCES

Ayo Beraksi 2025 - Qoffea Backend Engineer for an AI coffee assessment platform (qoffea.cloud) held by PT Telkom Indonesia. Tech Stack: <i>Python</i>	Sep 2025 – Nov 2025	AI Surveillance Dashboard Backend development for an AI surveillance system supporting video analytics and alert pipelines. Tech Stack: <i>Python</i>	Jul 2025 – Aug 2025
Dashboard MSU Full-stack Dashboard ecosystem for Mosque & University. Architected centralized Admin Control Page. Tech Stack: <i>Next.js, PostgreSQL</i>	Nov 2025 – Jan 2026	Tel-U Great Planner Academic Developed an academic planning application featuring GPA computation and predictive grade projections.	Jun 2025
Sigwan ATK POS System Developed a Point-of-Sale retail system enabling inventory tracking, transactions, and sales reporting. Tech Stack: <i>PHP, JavaScript</i>	Jan 2026 – Apr 2026	Innovillage - Rewana IoT-based flood early-warning system for Innovillage competition held by PT Telkom Indonesia (Top 163 Finalist). Tech Stack: <i>C++, HES & IoT, PHP</i>	Oct 2023 – Feb 2024

ORGANIZATIONAL & LEADERSHIP EXPERIENCE

External Coordinator Hardware & Embedded System Lab	2025 - 2026	Advisory Board GenBI (Generasi Baru Indonesia)	2025 - 2026
Unit Head Unit Asrama Masjid Syamsul 'Ulum	2024 - 2025	Public Relations Staff GenBI (Generasi Baru Indonesia)	2024 - 2025
Chief Officer PMB I-FEST (Islamic Festival) - Al-Fath	Jul - Sep 2024	Head of Ramadhan Dept. PRADA 1445 H - DKM Syamsul 'Ulum	Dec 2023 - Jun 2024

AWARDS & CERTIFICATIONS

- Computer Program Copyright:** "Tel-U Great Planner Academic" (Reg No: 000925616) – Ministry of Law Republic of Indonesia (2025)
- BNSP Digital Marketing Certification** (2024)
- Finalist Top 163 INNOVILLAGE 2023** | Telkom Indonesia (2023)

SKILLS

Technical & Development:	Python, SQL (PostgreSQL), Machine Learning Integration, Data Pipelines, AI & IoT Systems, C++, Next.js, PHP
Management & Strategy:	Business Development, Project Management, External Relations, Leadership, Agile/Sprint Planning
